TEACHING EXPERIENCE

May 2015 - Aug 2015 Teaching Assistant for Operating Systems Course (CS 2042), CSE-UoM.
The objective of this course was to provide fundamental knowledge in Operating Systems to computer science students. My tasks included providing instructions for the labs and grading assignments.

WORK EXPERIENCE

- Oct 2015 - present* Research Software Developer - [Science Gateways Research Center](#), Indiana University
Program committee member and core developer in the [Apache Airavata](#) project which is a science gateway middleware framework that enables users to compose, manage, execute, and monitor large scale applications and workflows on distributed computing resources such as local clusters, supercomputers, computational grids, and computing clouds.
- May 2014 - Sep 2014* Google Summer of Code Intern for Apache Airavata
Before this work Airavata did not support security capabilities for communication between Airavata based gateways and the Airavata server. In this project I implemented security capabilities to Airavata thrift services and clients (link: <https://goo.gl/4qAS3X>).
- May 2013 - Sep 2013* Google Summer of Code Intern for phpMyAdmin
Refactored the SQL executor and column structure manipulation code in phpMyAdmin, which is an open-source web based interface for the MySQL databases (link : <https://goo.gl/JNk3vM>).
